Results-oriented and adaptable Software Developer with a passion for continuous learning and a strong drive to excel in the tech industry. Skilled in full-stack web development and experienced in collaborating with cross-functional teams to deliver successful projects. Demonstrated expertise in HTML, CSS, JavaScript, and ASP.NET Core MVC Framework for API and web development, resulting in streamlined processes and improved project completion efficiency. Proven ability to apply agile principles and pair programming techniques, contributing to increased team productivity and efficient code delivery. Committed to leveraging my strong problem-solving skills, fast learning abilities, and excellent time management to make a significant difference in driving innovation and success within a dynamic software development team.

EXPERIENCE

C# Developer
7/11/2022 – 23/5/2023
Sparta Global

- Collaborated with cross-functional teams in an Agile environment to successfully deliver projects.
- Acquired proficiency in HTML, CSS, JavaScript, and ASP.NET Core MVC Framework for API and web development.
- Demonstrated skills in NUnit and Moq for testing and mocking.
- Utilised asynchronous programming techniques and built REST APIs using ASP.NET Core Razor Pages.

Full-Stack Software Developer
11/2021 - 3/2022
School of Code

- Actively collaborated within a new team on a weekly basis, effectively learning new technologies and implementing them in hackathons every Friday.
- Mastered various software development tools, including JavaScript, React, and Jest.
- Applied agile principles and participated in pair programming throughout the entire course, fostering collaborative and efficient development practices.
